Reflections

Dadi Ratan Mohini

Chief Administrative Head,
Prajapita Brahma Kumaris
Ishwariya Vishwa Vidyalaya

Last year we saw an unprecedented outbreak of a disease called Covid-19. Fear and worry gripped people across the world and in every corner of India. Medical professionals put their own lives at immense risk in treating patients as best as they could. In our Global Hospital branches too, Covid-19 patients were treated with the utmost care.

We heard of the loveful and tireless services of the doctors, nurses and allied staff at Global Hospital, and experienced great pride. With courage you offered thousands of people a new lease of life. Patients were touched forever. So many families were saved from losing a loved one. In serving humanity, you experienced strength and happiness. You accumulated Godly blessings and countless good wishes from those you served. No matter what lies ahead, use your power of silence and your deep sense of calm to understand the situation and alleviate suffering. Success is your birthright. Congratulations and blessings!

Mohini Punjabi

Additional Administrative Head,
Brahma Kumaris

Om Shanti and greetings of love to Dr Partap bhai and the Global Hospital family,

For many years I have had deep appreciation for the service all of you do. But this year in particular, as your annual report is published recounting your many successes, I want to acknowledge your spiritual success—your selfless service throughout this Covid-19 pandemic. In the midst of all of the worry and fear, you maintained your usual high standards of cleanliness and service, and spiritual atmosphere. In remaining loving and cooperative, you won hearts from the grateful family around the world. The way you trust and cooperate with each other paves the way for success in service.

On behalf of the worldwide family, I send good wishes and pure feelings with gratitude for all you have done under Dr Partap's transparent leadership, and all you will continue to do to serve humanity.

Jayanti Kirpalani

Additional Administrative Head,
Brahma Kumaris

Global Hospital and Research Centre has wonderfully served both the local community and tourists. The late Dadi Janki, Chief of Brahma Kumaris, supported Global Hospital with a huge amount of love and practical assistance. The foundation that carries her name—Janki Foundation for Spirituality in Health Care—continues to support Global Hospital in the outstanding work that it does.

As the pandemic touched everyone's lives across the world, Global Hospital supported patients impacted by Covid-19. The installation of oxygen production equipment surely gave new life to many patients. Most of all I know that the atmosphere of meditation in the hospital and the kindness of all the staff provides a wonderful ambience that enables healing to happen speedily and beautifully.

My personal congratulations to the trustees, the patrons, Dr Partap Midha, medical director & trustee, and the team for your success. Global Hospital will grow and continue to be a place that provides healing of body and soul.

BK Nirwair

Managing Trustee,
Global Hospital & Research Centre
Secretary-General, Brahma Kumaris

I extend my eternal and heartfelt gratitude and congratulations to respected Dr Partap Midha, medical director of J Watumull Global Hospital & Research Centre, and his vast team who have been rendering their services and skills with utmost dedication for over 30 years now! It is an unparalleled milestone deserving all our appreciation and good wishes. I recently met some of the staff nurses and doctors and they were very proud of their achievements. Global Hospital has left a prominent mark on society.

This past year and a half during Covid-19 was unbelievably challenging, with a lot of upheaval due to a shortage of oxygen, medicines and injections. But our contacts from all over India helped us treat hundreds of Covid-19 patients. We can never forget the diligent effort of and timely contributions from philanthropic organisations and hoteliers from Mt Abu.

The sisters and brothers of the Brahma Kumaris institution worldwide have always extended their sincere and valuable cooperation to the hospital. Several of our trustees and kind-hearted donors have been very supportive in extending their helping hand at all times.

The hospital continues to bloom. Several new facilities have been planned. We look forward to the installation of an MRI machine at the trauma centre. We hope to see the facilities of the nursing college expand. A second and bigger senior citizens' home is another beautiful venture that is underway. All these visions will crystallise when we have united and enthusiastic teams in place.

BK Brij Mohan,

Additional Secretary-General,
Prajapita Brahma Kumaris Ishwariya
Vishwa Vidyalaya

It is said that health is wealth, and if material wealth is lost, nothing is lost, but if health is lost, something is lost. Even if one has abundant wealth, one cannot enjoy it in the absence of good health. Global Hospital & Research Centre has been providing commendable healthcare services for 30 years now. The hospital stands out among medical facilities with the quality of care it provides, which has a distinct spiritual touch.

I have visited Global Hospital on several occasions for tests and treatment, and always felt as if I was with friends and family. The spiritual principles followed by the Brahma Kumars and Brahma Kumaris working in the hospital are reflected in their dedicated service. One feels uneasy when visiting other hospitals, but the calm and relaxing atmosphere of the Global Hospital, and the amiable staff, put you at ease. This itself has a palliative effect on anxious patients.

The hospital has grown over the years with the addition of various facilities, many of them provided by charitable souls whose spirit of generosity is carried forward by it through services provided free of cost to the economically weaker sections of the local population.

During the Covid pandemic, Global Hospital has provided valuable support to the local community.

I am sure Global Hospital will continue on its successful journey in the years to come, relieving the suffering of patients and helping to put a smile back on their faces.

Dr Partap Midha

Medical Director,
J Watumull Global Hospital & Research Centre
Trustee Global Hospital & Research Centre

What a start to the year! The second wave of Covid-19 took the world by storm in April 2020, and India too. At the J Watumull Global Hospital & Research Centre, we admitted 211 patients while the Radha Mohan Mehrotra Global Hospital Trauma Centre admitted 118 patients. We stood shoulder to shoulder with the local administration to care for the people of Sirohi. Simply arranging enough oxygen was a challenge but we managed somehow. Two new oxygen plants will ensure we are in a better position the next time round.

We had the privilege of honouring Dr Ashok Mehta, one of India's leading head & neck cancer surgeons on achieving 50 years of practice. Serving humanity for this duration of time is a remarkable feat. We are proud to have been associated with him.

We have been fortunate to have the continued support of the Australian Friends for Global Hospital (AF4GH), an Australian not-for-profit that this last year has funded ambulances, a phaco machine, a yag laser, and the hospitalisation of poor people from remote villages.

Our accreditation with the National Accreditation Board of Hospitals came up for renewal last year. We had already instituted changes to our procedures in keeping with Covid-19 but the renewal necessitated our teams to step up and update the documentation to reflect Covid-19 best practices. I am happy to report that we sailed through the assessment process, getting a thumbs up for general cleanliness, ambience, commitment to quality and safety, state-of-the-art infrastructure and equipment, and human resources.

For the first time, the laboratory underwent the accreditation process under the National Accreditation Board for Testing and Calibration Laboratories. Getting this stamp of approval is a feather in the cap of the laboratory staff, who work tirelessly to ensure the testing services are at par with the best labs in cities.

At the Global Hospital Institute of Ophthalmology, Dr Shalini is taking glaucoma services to new heights. Her presence is ensuring that glaucoma cases aren't misdiagnosed nor slipping diagnosis. Dr Shalini aims at helping people with high intraocular pressure manage their condition so as to curtail the advancement of the disease and preserve vision. On an average, she sees 5-6 new cases daily and is following up a group of about 20-25 people with glaucoma.

Dr Amit Mohan began his second innings with us, this time, helming the Sri Adinath Fateh Global Eye Hospital, Jalore. With Dr Mohan calling the shots, the unit is sure to prosper.

No year can go by without mentioning the continuing stellar performance of the Rotary International Global Hospital Blood Bank. Pressing ahead with blood donation programmes in the midst of the pandemic ensured no shortage of blood and blood components for needy patients.

The flagship unit

J Watumull Global Hospital & Research Centre

2021 was undisputedly the year of Covid-19. Successive lockdowns majorly impacted the hospital. Regular walk-ins dropped to 56,263 from 100,066 in the previous year, and hospitalisations dropped to 2,833 from 5,128.

Popular services:

Holistic care of diabetes * Cardiac and other medical conditions * Care of paediatric patients * Dialysis * Surgery of the gall bladder, intestine, esophagus, rectum, including abdominal cancers * Head & neck cancers * Ear microsurgery * Surgery for fractures * Knee & hip joint replacement surgery * Cataract & other eye operations * Hysterectomy, conventional and vaginal

Supported by:

Catering * Dietetics & fitness * Electrical supply * Immunisation * Information technology * Laundry * Manifold * Networking & telephony * Transportation

Clockwise starting from top right: Sr dental surgeon Dr Niranjan Upadhyay with dental surgeon Dr Laxmi Patil, nursing supervisor Sangeeta Darji interacts with a patient, consultant orthopaedic surgeon Dr Kailash Kadel checks on a patient with nursing supervisor Smita Prajapati, senior consultant ENT surgeon Dr Sharad Mehta operates on a patient with Dr Keyur Mevada, oral & maxillofacial surgeon

Who pitched in when Covid-19 struck?

When the pandemic struck in March 2020, J Watumull Global Hospital & Research Centre was put on standby to receive Covid-19 patients but few cases occurred locally.

Meeting the hospital's operational expenses became very difficult. Fortunately, a call for assistance met with a very warm response. Gratitude to these organisations for their generosity:

Zorg van de Zaak (Holland):
Sponsored the salaries of staff employed in the Intensive Care Unit of the hospital for two months, and part of the cost of a ventilator to support ICU patients.

The Smile Train (USA):
Contributed towards the acquisition of personal protection gear.

PlayGames 24x7 (India):
Contributed towards the acquisition of personal protection gear and Bipap machines.

GiveIndia:
Contributed towards the wages of sanitation workers to keep them employed.

Wilde Ganzen (Holland):
Contributed to the cost of Covid-19 sample collection and transportation.

Generations Foundation (UK):
Contributed to the general operations of the hospital.

Point of Life Corp (USA):
Contributed to the general operations of the hospital.

The Support Foundation (UK):
Contributed to the general operations of the hospital.

Radha Mohan Mehrotra Medical Relief Trust:
Contributed to the general operations of the trauma hospital.

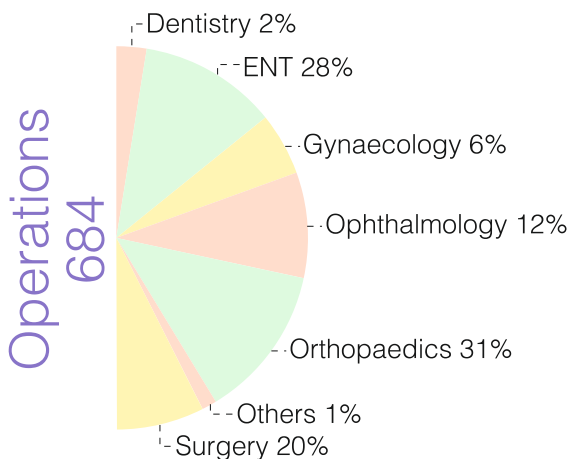

Sar-La Education Trust:
Contributed to the operations of the nursing college.

Free diagnostics | Paid diagnostics

Regular donors who help cover free patients' treatment costs

Ayushman Bharat Mahatma Gandhi Rajasthan Swasthya Bima Yojna

Covers the cost of pre-hospitalisation diagnostics and treatment for poor families covered under the National Food Security Act in Rajasthan.
Operational | since 2015
Sponsor | Rajasthan Government
Beneficiaries | 911

Smile Train Inc.

Covers the cost of cleft lip and/or cleft palate corrective surgery for children from poor families.
Operational | since 2006
Sponsor | The Smile Train Inc.
Beneficiaries | 64

GiveIndia

Helps poor patients access a gynaecologist, paediatrician and radiologist. Also covers the cost of gynaecological operations, trauma care, CT scans and nutritional supplements for poor tuberculosis patients.
Operational | since 2009
Sponsor | Taps online donors
Beneficiaries | Thousands

Juvenile Patients Fund

Meets the cost of diagnostics and treatment for children from poor families, at both the Mt Abu and Abu Road units.
Operational | since 2008
Sponsor | Individual philanthropists
Beneficiaries | 340 children

Dialysis Patients Fund

Covers the cost of dialysis at Mt Abu and Abu Road for poor patients who are not covered under any other health support programme.
Operational | since 2014
Sponsor | Individual philanthropists
Beneficiaries | 47

Ophthalmic services

Global Hospital Institute of Ophthalmology

As a result of the pandemic, regular walk-ins dropped to 25,791 from 47,036 in the previous year, and hospitalisations dropped to 1,790 from 3,311.

Popular services:

Cataract surgery with intra ocular lens implant * Squint surgery * Paediatric eye surgery * Pterygium excision * Phaco/small incision cataract surgery * Trabeculectomy * Corneal tear repair surgery

Clockwise starting from top right:
 During the Covid-19 outbreak sanitisation at all entry points was prioritised
 Dr Shalini, junior consultant, ophthalmology, sees a patient
 Eye testing at a makeshift field location
 Surgery with a new microscope donated by the Embassy of Japan

Cataract blindness prevention

Global Hospital Institute of Ophthalmology, J Watumull Global Hospital & Research Centre and Sri Adinath Fateh Global Eye Hospital are implementing agencies of the National Programme for Control of Blindness.

Why | To fulfill a community need.

When | Since 1997

Patients get their eyes checked at an eye screening programme

Beneficiaries | 379 intra ocular lens implants and 1 small incision cataract surgery that fell within government norms for the partial reimbursement of the cost of surgery.

These included walk-ins and cases identified from 3,794 patients who presented themselves at 34 screening programmes. Campsite refractions numbered 1,603 and 727 glasses were dispensed.

Sponsors | Government of Rajasthan (partial reimbursement of the cost); Seva Foundation with L V Prasad Eye Institute; Mahaveer International; Pradeep Badamiya; Yograj Jain & Kishore Jain

Screening had stopped during the pandemic, it has since resumed in a small way

Sri Adinath Fateh Global Eye Hospital, Jalore, is serving the community

Sri Adinath Fateh Global Eye Hospital

The Sri Adinath Fateh Global Eye Hospital is an ophthalmic unit in Jalore, commissioned in November 2017.

Late professor Mohan Lal Bohra of Jalore sponsored the creation of this new eye hospital in memory of his late wife, Shantidevi Mohanlal Bohra. The Bohra's are industrialists engaged in granite mining (Fateh Granites). For operational purposes, the Bohras' family charity, the Fateh Kalyan Charitable Trust, is represented by Sushila Chandmal Mehta, the late professors' daughter, and her cousins Pushpraj Bohra and Rameshraj Bohra.

Sri Adinath Fateh Global Eye Hospital houses 20 beds for patients from economically less privileged backgrounds and five for private patients, one major and one minor operation theatre, a sterilisation room, two clinics, two refraction rooms, one counselling room, one procedure room, an optical shop, a medical store, an admin office and support services.

During the year gone by, walk-ins dropped to **17,912** from **19,025**, and the operations performed dropped to **594** from **836**.

Vision Centres

Vision Centres in Raniwara, district Jalore, and in Kalandri and Pindwara, district Sirohi, conduct eye checks and minor ophthalmic procedures while referring serious cases to the Global Hospital Institute of Ophthalmology.

Why | These outposts help disseminate awareness about the eye care services offered by the parent organisation and facilitate postoperative eye check-ups for patients living afar.

Modus operandi | The centres are run on a no profit-no loss basis. Patients are charged nominally for the procedures. Post-operative checks are conducted for free.

When | Since January 2010 (Raniwara), January 2011 (Kalandri), July 2016 (Pindwara)

Donors | Orbis Inc. supported the creation of the Raniwara centre; PC Parmar Foundation supported the Kalandri centre; Swaran Singh Sian from UK sponsored the centre in Pindwara.

Beneficiaries | **5,897** eye checks as against **6,873** a year ago, including **615** children as against **897** a year ago. **3,916** spectacles prescribed.

The vision centres facilitate eye checks and dispense spectacles

Branches

Radha Mohan Mehrotra Global Hospital Trauma Centre

As a result of the pandemic, regular walk-ins dropped to 25,627 from 41,684 in the previous year, and hospitalisations dropped to 3,931 from 4,870.

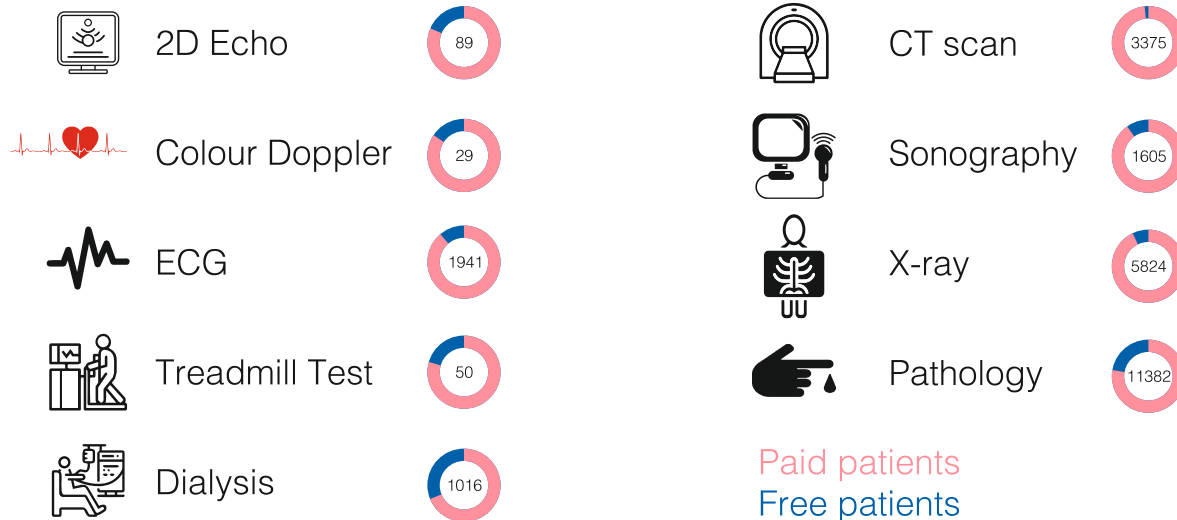

Popular services:

Cardiac and other medical conditions * Casualty services * Dentistry * Dialysis * ENT consultations * General surgery * Gynaecology consultations * Joint replacement surgery * Neurosurgery * Orthopaedics surgery * Pain management * Physiotherapy * Whole blood and blood components

Clockwise starting from top right:

 Surgery underway in the upgraded operation theatre

Diagnostics

Rotary International Global Hospital Blood Bank

Salient features:

- The only not-for-profit Regional Blood Transfusion Centre in Rajasthan
- Mandated to promote voluntary blood donation
- Mandated to separate into components at least half of the blood it collects and to solve technical and clinical problems of the region it oversees

Last years salient achievements:

5,806 donor bleeds, 100% voluntary

30 donation drives, 2,598 units

Issues: 102 units of whole blood, 5,589 units of packed cells, 310 units of fresh frozen plasma, 67 units of platelets, 78 units of cryoprecipitate

6,146 units issued, 24% free

746 units issued to the Thalassemia Day Care Centre, 334 patients transfused, 2,924 patients served

Partners for blood donation drives:

- Adarsh Niketan School Family
- Adivasi Yuva Manch, Abu Road
- Agarwal Samaj
- BJP Yuva Morcha Mandal

Blood collection in progress in a mobile van

Shri Jaisinh Jain Dispensary

Established in February 2013, this family clinic caters to residents of Delwara, a suburb of Mt Abu. Delwara lacks a health service, so this facility is invaluable. The service is offered two hours in the morning and evening Monday through Saturday. Sudhir Jain and Shailesh Jain, Mt Abu residents, helped establish the clinic in premises owned by the famous Dilwara Jain temple (Digambar Jain Mandir), in memory of their late father Shri Jaisinh Jain. They also partially sponsor the free medicines dispensed to needy patients. Last year, 1,937 persons were served through this clinic, a significant drop from 5,747 in the previous year.

Shivmani Geriatric Home

A residential facility for the elderly, currently occupied by 95 individuals. Shivmani residents celebrate festivals, enjoy spiritual discourses, and avail an array of facilities on campus such as a dietician for consultations, a physiotherapist for fitness/physiotherapy sessions, consultations with a geriatric care specialist, etc.

A senior enjoys a physiotherapy session

Brigadier Vora Clinic & Jyoti Bindu Diagnostic Centre

A family clinic offering consultation with a general practitioner (GP), elementary diagnostics and consultations with visiting specialists. Last year, 705 male patients, 762 female patients and 354 children sought the services of the GP. Blood investigations numbered 216 and 81 urine exams were done. The panel of visiting specialists included dermatologist Dr G M Vinod, diabetologist Dr Sunil Maniyar, gynaecologist Dr Rasilaben Patel, ophthalmologist Dr Ketan Patel, paediatrician Dr Amishaben Maniyar and surgeon Dr J M Dave. Specialist consultations numbered 219, and included 53 dermatology, 32 diabetes, 34 gynaecology, 75 ophthalmology and 25 paediatric consultations.

The general practitioner Dr Karan Chauhan sees a patient

G V Modi Rural Health Care Centre

This clinic offers medical and geriatric consultations and counselling. Last year, 116 walk-ins consulted the doctor. He additionally offered 128 consultations to the senior citizen residents of Shivmani Geriatric Home. 2,405 patients availed of the counselling services.

Dr Mahesh Hemadri, medical officer & incharge, sees a geriatric patient

BSES Municipal General Hospital

BSES Municipal General Hospital is a joint venture of the Municipal Corporation of Greater Mumbai, Brihanmumbai Suburban Electricity Supply and Global Hospital & Research Centre. It is a 100-bed hospital including 33 general beds and 33 intensive care unit beds. Here are a few glimpses from last years' services.

Out-patients

Operations

Admitted patients

Covid - 19
Admitted patients

Private

General

Summary

In the out-patient department, general patients consult doctors and avail diagnostic facilities for free. Admitted general patients are either treated for free (indigent patients) or for a heavily subsidised charge. General patients constituted one-fifth of the hospital's admissions last year as the above charts show. Some of the general patients who underwent operations were beneficiaries of the Mahatma Jyotiba Phule Jan Arogya Yojna, the health insurance scheme of the government of Maharashtra. BSES MG Hospital is mandated to treat people covered by this scheme. 150 operations were cleft correction operations that were sponsored by the Stiftungs Cleft Children International, Switzerland. The mobile clinic sponsored by Larsen & Toubro conducted 86 consultation events during the year, those beneficiaries numbered 7,796.

(For Radha Mohan Mehtotra Global Hospital & Trauma Centre)

Operation Theatre

- Anaesthesia workstation, ₹ 13,50,000
- Patient monitor with gas module, ₹ 5,75,000
- Intubation scope (HD video), ₹ 8,00,000
- Neuro head frame with accessories, ₹ 8,50,000
- Neuro attachments, ₹ 6,50,000
- Defibrillator, ₹ 1,75,000
- Patient monitor (post OT) x 2, ₹ 1,80,000
- Cautery with vessel sealer, ₹ 15,00,000
- Flash autoclave (Class B), ₹ 1,25,000
- Digital vein finder, ₹ 1,70,000
- Neuro surgery instrument, ₹ 2,00,000
- Blood warmer & IV fluid warmer, ₹ 2,50,000
- Patient warming unit, ₹ 90,000
- Doctors/nurse table with chair, ₹ 95,000
- Computer with printer, ₹ 60,000
- Crash cart, ₹ 84,000

Pathology & blood bank

- Blood bank deep freezer, ₹ 3,50,000
- Blood donor couch, ₹ 1,60,000

Ward

- Patient monitor (for private rooms) x 5, ₹ 4,75,000
- Gas pipeline, 180 metre (15 mm), 60 metre (12 mm), outlet, oxygen flow metre, vacuum bottle, ₹ 4,25,000
- ECG machine with trolley, ₹ 1,65,000

(For Global Hospital Institute of Ophthalmology)

- Slit lamp with tonometer, ₹ 1,90,000
- Camera with recording system for microscope, ₹ 3,25,000
- Autoclave (class B), ₹ 1,25,000
- Slit lamp with tonometer with imaging system, ₹ 13,00,000
- Refraction unit, ₹ 95,000

(For Sri Adinath Fateh Global Eye Hospital, Jalore)

- YAG laser, ₹ 8,50,000
- Non-contact tonometer, ₹ 5,50,000
- Steam steriliser, ₹ 3,50,000
- Perimeter, ₹ 10,00,000
- B-scan machine, ₹ 7,50,000
- Minor OT light, ₹ 90,000

Community outreach

Community Service Project

Two doctors assisted by two attendants and two drivers run a mobile health consultation service. They visit 69 villages in tehsils Abu Road, Pindwara and Reodar in district Sirohi, a population of about 150,000, underserved by the existing health services.

Remarkably, this service saw no drop in service levels over the previous year because the teams continued to work through the Covid-19 pandemic.

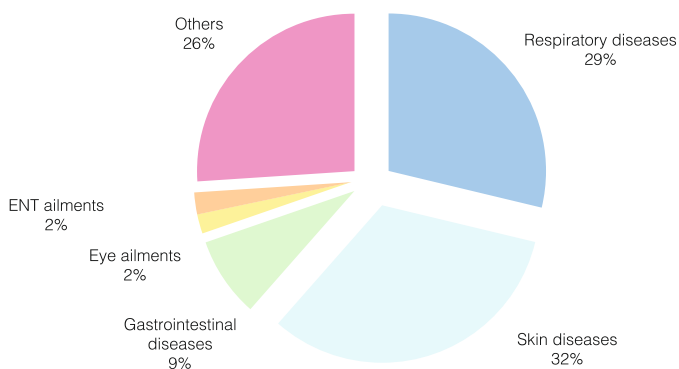

Start year | 2004

Doctors on roll | Dr Ashok Dave, Dr Rajeev Jain

Annual tally | 27,745 patients

Patients by disease

Patients by age

Gali Garasia, a 50 year old woman living in Deri, a village in block Abu Road, on the route of the Community Service Project, presented with suspicious looking ulcers in her mouth. Dr Ashok Dave, clinical associate & coordinator, referred her to Dr Sharad Mehta, senior consultant ENT surgeon. Investigation showed that Gali had cancer of the tongue with secondaries in the neck. Dr Mehta operated on her to remove the cancerous tissue and lymph nodes. She is now doing well.

Village Outreach Programme

A health consultation service for 20 villages around Mt Abu: Aarna-Hetamji, Achalgarh, Chandela (Telapurphali, Ambaveriphali, Bageri, Khadraphali), Jaidra, Jamburi, Jawaingaon, Kyaria-Takiya, Nichalagarh, Oriya, Salgaon, Shergaon-Utteraj, Siawa, Tuka, Uplagarh.

Start year | 1991

Doctors on roll | Dr Kanak Shrivastava, Dr Manisha Maindad

Annual tally | 8,343 patients on site, 1,607 stepped in for consultations, 82 hospital admissions

Dr Manisha Maindad, medical officer, VOP, checks on the health of village women

Sewing Project

In villages Chandela (three locations) and Oriya, the VOP sustains a sewing teaching service. Some years ago the VOP had invested in creating activity rooms in those two villages, and equipped them with five machines each, which women and girls were free to use. The VOP also hired two seamstresses to come in to teach. The idea behind this project was to contribute to livelihoods by teaching women a useful skill.

A village woman learning how to use a sewing machine

Nutritional Project

Since 1995, about 2,500 pupils of government schools in 17 villages forming the VOP circle are served a milk-based snack daily and fruit weekly during school hours to improve their nutritional status and encourage school attendance.

When funds are available, students are distributed learning aids and warm clothing, and schools are provided with extra infrastructure. Occasionally, the children are delivered informative lectures.

Sponsors

Individual philanthropists,
Kanyadaan Charitable
Trust, Hong Kong

Children line up for their mid-day milk-based meal

Tuberculosis Project

Field workers posted in villages, supported by a supervisor and three doctors, identify suspect tuberculosis patients and get their sputum tested. Field workers personally visit positively identified patients to administer medicine, ensure their compliance with the six month-long treatment regimen and give them high-protein food to build their immunity and prevent relapses.

Timely detection and treatment helps check the spread of tuberculosis. Positive cases turn non-infectious a fortnight after being put on treatment. Both the Radha Mohan Mehrotra Global Hospital Trauma Centre and J Watumull Global Hospital & Research Centre are registered Designated Microscopy Centres under the Government of India's Revised National Tuberculosis Control Programme.

Project start year | 2008

Annual tally | 95 sputum exams; 63 positive cases; 56 cures

Research

Research

At both J Watumull Global Hospital & Research Centre and the Global Hospital Institute of Ophthalmology, research receives a shot in the arm from the DNB programme in Ophthalmology that requires candidates to conduct research. Additionally, an active team of researchers at the Saroj Lalji Mehrotra Global Nursing College, Talhati, Abu Road, promotes, conducts and publishes research.

New Projects

4

- ☆ Hip fractures in geriatric patients, Dr Nithin Sunku, Consultant Orthopaedics & Joint Replacement Surgeon
- ☆ Fracture in a polio limb, post polio residual paralysis, Dr Nithin Sunku, Consultant Orthopaedics & Joint Replacement Surgeon
- ☆ Effectiveness of a gratitude intervention on gratitude, self responsibility to learn and study habits of nursing students of select nursing colleges, Rajasthan (PhD ongoing study), Chris Thomas, Associate Professor, Saroj Lalji Mohan Global Nursing College
- ☆ Effectiveness of a need-based motivational programme on the level of motivation to learn, level of learning stress and academic performance of nursing students of select colleges of Rajasthan (PhD ongoing study), Maneesh Sharma, Assistant Professor, Saroj Lalji Mohan Global Nursing College

Completed Research Projects

8

- ☆ A pilot study on the effect of a residential, group-based intensive holistic lifestyle intervention on type 2 diabetes patients, Dr Shrimant Sahu, Anaesthetist & Diabetologist, conducted with Bhavnagar Medical College
- ☆ Assess public perception on physical health challenges and identify psychosocial challenges faced by them in a nationwide lockdown during the COVID-19 outbreak: A qualitative web based survey (April 2020), Chris Thomas, Associate Professor, Saroj Lalji Mohan Global Nursing College
- ☆ A pre-experimental study to assess the effectiveness of training on first aid for epilepsy in children in terms of knowledge among school teachers at selected schools, Sirohi, Priyadarshini, Kishore, Amrit, Ramesh, Nursing Students
- ☆ Identify strategies for bridging the theory-practice gap in nursing education from the perspective of nursing teachers, clinical nurses and nursing students from selected hospitals and nursing colleges of Northern India: A qualitative study, Lovely, Yuvraj, Praveen, Rakesh, Nursing Students
- ☆ Assess the level of knowledge regarding home remedies for dysmenorrhea among girls studying in Saroj Lalji Mohan Global Nursing College and Global Hospital School of Nursing, Sweety, Nandinee, Sawai, Shrawan, Vikram, Nursing Students

- ☆ A descriptive study to assess the level of stress among staff nurses regarding Covid-19 working at selected private hospitals in Abu Road, Yuvraj, Lalit, Krishna, Nakul, Nursing Students

Education

Global Hospital School of Nursing/ Saroj Lalji Mehrotra Global Nursing College

The lamp lighting (oath taking) ceremony of the new students

Global Hospital School of Nursing offers a three year diploma in General Nursing & Midwifery since 2006 (students referred to as GNM students).

Saroj Lalji Mehrotra Global Nursing College offers a four year graduate programme in nursing since 2011 (students referred to as BSc students).

In 2020, 69 students (42 girls, 27 boys) were on the rolls of the school, 113 students (47 girls, 66 boys) were on the rolls of the college. 17 school students and 30 college students joined during the year.

Inclusive education

Four GNM students were provided education loans. Zorg van de Zaak Foundation, a Dutch NGO sponsored two handicapped young adults, a boy and a girl. Previously that organisation had sponsored three girls from socio-economically weak families.

Two BSc students were provided education loans and one was provided financial assistance.

Four graduate students were selected for the CHO post–Yuvraj Singh Adha, Yuvraj Singh, Dilip Kumar, Priyadarshini Parihar.

Greening the campus: Rajat Rawat, manager, State Bank of India, participated in tree plantation with the principal Shashi Bala Gupta

Post graduate degree in Ophthalmology

Global Hospital Institute of Ophthalmology has been a National Board of Examination accredited institute for post graduate training in ophthalmology since 2013. The institute offers two primary DNB in Ophthalmology seats for candidates holding a graduate degree in medicine (MBBS). This is a three year course. Two secondary seats are on offer for candidates holding a Diploma in Ophthalmology (DO/DOMS). This is a two year course.

Dr Pooja Sah, Dr Sonal Songra, Dr Akanksha Kumari joined the programme in 2020.

They joined second year residents Dr Anshuman Pattnaik and Dr Poulami Pal, and final year residents Dr Pooja Shivaji Shinde and Dr Nimeshbhai Bhalaji Purohit.

DNB candidate Dr Pooja Sah sees a patient

Diploma/Certificate in Ophthalmic Techniques

Global Hospital Institute of Ophthalmology offers a three year diploma/certificate in Ophthalmic Techniques conducted in affiliation with the Federation of Ophthalmology and Optometry Research and Education College, New Delhi.

The institute had seven students on its rolls last year. Three new students were admitted.

Address inquiries for this diploma course to Dinesh Singh, eyecare manager, email: dinesh.singh@ghrc-abu.com

Students assist technicians in conducting eye checks and counselling patients

Student observerships

Pranav Sharma, a first year student of a bachelors of physiotherapy programme at the NIMS University, Jaipur, underwent an observership in physiotherapy from June 17, 2020 to July 31, 2021.

Dr Sapna Saini, a graduate in dental surgery, underwent an observership in dentistry from August 10 to December 31.

Dr Sapna Saini underwent an observership in dentistry

Dr Arshia Mahajan, a student of a graduate programme in ayurveda medicine and surgery at the Abhilashi University, Mandi, underwent a rotary internship from January 20 to July 19.

Archana Somnathan, a first year student of a post graduate programme in medical surgical nursing at the Manikaka Topawala Institute of Nursing, Anand, underwent a clinic posting in the nursing department from December 14 to January 16.

Dr Arshia Mahajan assists a procedure

Guidelines for Students/Volunteers/Observers/Interns:

Students will strictly work under the observation of hospital staff.

Students will not handle hospital machines/instruments in the absence of hospital staff.

Students will not deal with patients directly.

Minimum two days advance written intimation of leave is a must.

Students should mark their attendance daily in the register kept in the HR department.

Students shall observe the hospital decorum.

Dress code: business formals.

Take prior permission for workplace photography.

Clinical duty hours extend to eight hours per day, and may include shift duty in rotation with one weekly off.

Students will be responsible for any loss due to damage of instruments/equipment in their area of work due to their negligence.

In such cases, the damage will be recovered from students.

Students are advised to not keep valuables in their rooms. The institution shall not be responsible for any theft, loss.

Sparely use electricity and water. Switch off fans and lights and taps when not in use.

Students aren't allowed to host their relatives or friends in hospital-allotted accommodation.

Donors who pay taxes in India can avail income tax benefits under section 80 G of the Income Tax Act of 1961

50% of the donated amount is deductible from income for the purpose of computation of taxable income

Training & development

Summary

With the Covid-19 imposed lockdown coming into effect just before the start of the year, offline training was almost completely suspended in the first quarter let alone a few instances of training to familiarise staff with Covid-19 protective gear. However, online learning was introduced and staff was enthusiastic about that and very quick to adapt to the new mode. As external conferences and training programmes also gradually shifted online, staff participation in events grew. When the first lockdown was relaxed, internal training programmes and learning events were re-introduced, strictly in keeping with government guidelines—limiting the number of participants, ensuring social distancing and the wearing of masks and adherence to other Covid-appropriate behaviours. The hospital purchased an additional Zoom Pro (video conferencing software) license and renewed the existing Zoom Pro license enabling up to 1,000 people to attend an event.

The yearly tally of events stood as follows:

The following staff were supported for external events, essentially, online training programmes:

- Ophthalmology department staff members attended Flying Eye Hospital remote training organised by Orbis International: 5
- Pathology department staff members attended SARS Covid-19 related training: 2
- Staff members, one from the admin department and one from physiotherapy department attended online advanced certificate in NABH edition-2 programme: 2
- Admin staff attended train the trainer skill development programme organised by BOSCH: 1
- Staff member from bio-medical engineering department attended a training programme on SQL Server DBA database management organised by Intellipaart: 1

Accreditation with standards certifying body

In 2019, J Watumull Global Hospital & Research Centre was accredited for two years at the pre-entry level of the National Accreditation Board of Hospitals (NABH). This accreditation was to come up for renewal in April 2021. So in October 2020, the hospital started the formal process of applying for renewal.

As a result of the pandemic, the Quality Council of India launched the Healthcare Organisation Platform for Entry Level Certification (HOPE), a revision of the NABH's current certification process for entry level institutions. The HOPE web portal was designed for a hassle-free, easy documentation and assessment process. HOPE has a parallel mobile app to directly upload geotagged and time-stamped evidence for compliance.

NABH is a continuous process, necessitating continuous effort to maintain the hospital's quality assurance, standards, policies, standard operating procedures etc.

During the year, the NABH team created 87 policies, 16 departmental manuals and two hospital-wide manuals comprised of some 241 standard operating procedures, 33 clinical guidelines, 9 clinical procedures, 1 apex manual, 1 drug formulary and updated the hospital organogram.

Several training programmes and mock drills were held, pertaining to medical emergencies, external disasters, fire, the spillage of hazardous materials, the safe transfer of patients, the care of vulnerable patients, etc.

Some investments were made in the hospital infrastructure to improve the quality of care and services, such as the creation of a high dependency unit in the general ward and a dirty window and pass box in the operation theatre. A fire hose reel system and illumination signs for fire exits were installed. A pathologist was recruited. All the existing policies were renumbered, checked, reviewed and amended in keeping with the Covid-19 policy. The infection control, bio-medical waste and disaster management policy and protocol were changed according to the WHO guidelines for Covid-19.

The assessment process spanned an online assessment, an onsite virtual assessment, and approval by an assessment committee from the NABH board. Dr Manisha Khandait, a microbiologist, was the onsite auditor. After a four hour gruelling virtual assessment, she summarised her comments as follows:

The general cleanliness and ambience of the hospital is good as seen during the virtual assessment. A commitment to quality and safety was abundantly evidenced amongst staff. Good state of art infrastructure and the equipment, human resources. Overall the hospital is doing well.

Pooja Nandy and C Hemalatha, NABH coordinators, led the entire exercise.

Several months later, the NABH certificate was released.

Only 838 hospitals are fully accredited in India.

Values in Healthcare - A Spiritual Approach

Values in Healthcare: A Spiritual Approach (VIHASA) is a modular development programme for health professionals, created by the UK-based Janki Foundation for Spirituality in Healthcare, a not-for-profit that channels resources to help sustain the work of the hospital.

Through experimental exercises and opportunities for reflection and self enquiry, VIHASA helps healthcare professionals identify their core values and insights that can help them deliver the best possible care to patients and at the same time feel enriched by their work.

VIHASA training includes lectures and workshops ranging from 2 hours to 4 days. Participants can undergo facilitator training, which empowers their own practice and prepares them to run the programme in their organisations.

During the year, just three VIHASA events took place. One was for a group of 20 Rotarians in Ahmedabad, another was for a group of 20 in Benaras and a third was for a group of 50 in Abu Road.

Kalpana Bhandare, counsellor, spirituality & wellbeing department, and Shrinidhi K, dy manager, training & developer, conduct Values in Healthcare training

Governance & financials

THE GLOBAL HOSPITAL & RESEARCH CENTRE TRUST is registered with the Charity Commissioner of Greater Mumbai. The trust is represented by 11 unrelated trustees from diverse walks of life, including:

BK Nirwair is a visionary leader with exemplary drive, dedication and meditative qualities, an inspiration for many employees of the trust's hospitals at Mt Abu and Abu Road.

Mahesh Patel is a chartered accountant and businessman with a chain of care homes in the UK. His family helped support the establishment of the hospital's Shivmani Geriatric Home.

Dr Partap Midha worked for two decades with the health department of the government of Haryana, gaining an understanding of grassroots health needs. He is responsible for the trust units at Mount Abu and Abu Road.

Kishore D Shah is a retired businessman and resident of Mt Abu since 1982. He was instrumental for aggregating the land on which J Watumull Global Hospital & Research Centre is constructed.

Jeetendra G Mody is a civil engineer with five decades of experience in developing real estate. He has helped implement trust projects involving the construction of new buildings.

Gulu Watumull assumed the place of his father, late founder trustee and businessman Khubchand Watumull. Gulu worked in the fashion industry in the US and Hawaii for some years.

Dr Banarsi Lal Sah has been associated with the Trust since its inception as honorary treasurer. Dr Banarsi is executive secretary of the Medical Wing, Rajyoga Education & Research Foundation.

BK Yogini manages 22 Rajyoga centres of the Brahma Kumaris in Mumbai. At BSES MG Hospital, she is honorary director, Administration, and a member of the Advisory Committee.

Rashmikant Acharya brings three decades of global finance and technology experience managing teams of multinational corporations in 40 countries. Previously, he was a scientist at the Indian Space Research Organisation. He also worked for aerospace programmes like B777. He is an alumnus of Indian Institute of Management, Bangalore; ESADE Business School, Barcelona and London Business School, UK.

Notes to the Balance Sheet and Income & Expenditure Account for the year ended 31st March 2021

Significant accounting policies Basis of preparation of financial statements:

The financial statements are prepared under the historical cost convention on accrual basis and under going concern assumption in accordance with the generally accepted accounting principles (GAAP). The accounting policies adopted in the preparation of the financial statements are consistent with those of the previous year.

Use of estimates:

The preparation of the financial statements in conformity with the GAAP requires the management to make judgments, estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of an item or information in the financial statements. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

Fixed assets & impairment of assets:

Fixed Assets are capitalised at cost and are stated at historical cost. At each Balance Sheet date, an assessment is made as to whether there is any indication of impairment in the value of assets. Impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable value.

Foreign currency transactions:

Transactions in foreign currency are recorded at the rate of exchange in force on the date of the transactions. Current assets, current liabilities and borrowings denominated in foreign currency are translated at the exchange rate prevailing on the date of the Balance Sheet. The resultant gain/loss, except in cases where they relate to the acquisition of fixed assets, are recognised in the Profit & Loss Account.

Inventories:

Inventories such as stock of surgical, sutures, medicines, pathology chemicals and x-ray films are valued at cost or net realisable value whichever is lower and are physically verified and certified by the management.

Investments:

Investments are stated at cost.

Sundry creditors / debtors:

Sundry creditors and debtors are subject to confirmation from them.

Revenue recognition (all units except BSES MG Hospital):**1. Hospital receipts**

OPD receipts are accounted on accrual basis on the date of providing hospital services/facilities.

In-patient receipts are accounted on accrual basis on the date of billing as and when the patient is discharged. However billing is done upto March 31 of every year.

2. Medical stores receipts

GHRC Medical Stores, Mt Abu, GHIO Medical Stores (Talheti) and PM Jan Aushadi Kendra, Mt Abu sales are accounted net of GST (excluding GST) and transfers to inter units are shown separately. Similarly, purchases are accounted net of GST (excluding GST) and transfers from / to inter units are shown separately.

3. Donation receipts are accounted on receipt basis on the date of receipt. Donations received towards specific / corpus fund are transferred to the respective fund as per the direction of the donor. Donations in kind are accounted as per cost / value available. If no cost or value is available these are accounted at a notional value of rupee one.

4. Interest on bank fixed deposits, investments is accounted on accrual basis.

5. Grants-in-aid from the government are accounted as and when those are sanctioned and reasonable certainty of the disbursement of claim exists.

Revenue recognition (BSES MG Hospital):

1. Medicines are sold over-the-counter on cash basis (Om Shanti Pharmacy).

2. General: Patient deposits (de-pending on the decided category) are received when the patient is admitted in the hospital. The bill is updated on a regular basis to calculate the due amount. The final bill is presented at the time of discharge of the patient and the balance payment is received.

3. TPA/Corporate: Security deposits (depending on the decided category) are

received when the patient is admitted.

The bill is updated on a regular basis to calculate the due amount. The final bill is presented at the time of discharge. The amount is received from the TPA/Corporate as per the credit terms.

4. Rental, interest and dividend incomes are recognised on accrual basis.

5. Donations are recognised as in cash or kind. Donations are accounted on receipt basis on the date of receipt. Donations received towards specific / corpus funds are transferred to the respective fund as per the direction of the donor. Donations in kind are accounted as per the cost / value available. If no cost or value is available these are accounted at a notional value of rupee one.

Depreciation:

Depreciation on fixed assets is provided on written down value method as per rates shown against each asset as under:

- In case of assets held on 1st April 2020, for a full year
- In case of assets purchased and capitalised during the year, for half a year irrespective of the date of purchase.

Contingent liabilities:

Contingent liabilities are not provided in the books and are disclosed by way of notes to accounts.

Gratuity:

The trust has opted for a group gratuity scheme with the Life Insurance Corporation of India for the benefit of employees.

Contingent liabilities not provided for:

Nil

Claim made by other parties not acknowledge as debt:

Nil

Bank guarantee:

An FDR of Rs1 lakh purchased from the State Bank of India Mt Abu Branch has been given as bank guarantee to the ECHS Regional Centre, Ahmedabad.

BSES MG Hospital v/s labour contractors:

Certain contract labourers of the hospital have filed a suit in the labour court. The management of the hospital is of the view that there are no material financial implications and hence no provision is

required for the same.

Dr Shashank Joshi & others (consumer court):

A medical negligence case was filed by the wife of late Mandar Welingkar against Dr Shashank Joshi (neurosurgeon), and the hospital was made a party to it as the operation was done in the hospital.

In compliance with the directions of the Honorable Mumbai High Court, a sum of Rs 71,94,338 being 2% of the gross receipts of the year have been set apart and credited to the "Indigent Patients Fund" for the benefit of indigent patients to be spent in the manner specified under the scheme framed by the Honorable High Court.

Payment made to / from trustees and or their relatives:

The hospital has paid professional charges to medical director Dr Ashok R Mehta (Trustee) towards professional services rendered by him, which is considered reasonable.

In the opinion of the management, the nature and the realisable value of current assets, loans and advances, in the ordinary course of business, are as stated in the books of account.

Internal audit:

The internal audit of the trust units (except Brigadier Vora Clinics, Baroda) is carried out by M/s SMMP & Associates, Chartered Accountants, Mumbai. We have considered their reports for finalising the accounts. We have relied on their audit report and statements for merging in the main accounts.

The accounts of BSES MG Hospital, a branch in Mumbai, are audited by M/s N G Thakrar & Company, Chartered Accountants, Mumbai. Similarly, the accounts of GHRC Medical Stores, Pradhan Mantri Bhartiya Jan Arogya Kendra and GHIO Medical Stores branches at Mt Abu and Abu Road respectively are carried out by M/s SKHD & Associates, Chartered Accountants, Mumbai. We have relied on their audit report and statements for merging in the main accounts.

Figures of the current year and previous year:

These figures have been re-grouped and re-arranged wherever needed.
